What are your areas of interest?
The TMF QIN-QIO has established a set of “all teach, all learn” networks that allow health care providers, patients, caregivers and community stakeholders to work together to achieve the goal of better care at a lower cost. By joining the Networks you gain access to resources and announcements related to those Networks.

You may join or leave any Network at any time on the Networks page.

**Forum Notifications**
Through our forums, the TMF QIN-QIO facilitates conversations centered around the Learning and Action Networks on this website.
- [ ] Notify me when a new forum thread is started.

**Save Forum Preferences**

**Email Digest**
Which Networks' content should be included in your email digest?
- [ ] Readmissions

How often would you like to receive a digest?
- [ ] Daily
- [ ] Weekly
- [ ] Every two weeks

In what email format would you like to receive emails?
- [ ] HTML (Recommended)
- [ ] Plain Text

**Save Digest Preferences and Continue**

**Get Notified**
Receive email notifications for the Networks you've joined. Notifications help you stay current on discussions in the forums, announcements, emerging content and events happening in your Networks.

Your network notifications will be consolidated into a single email digest so you won't receive multiple emails for multiple Networks. You will receive a new email for each thread created in the forums.

**What’s the difference between “plain text” and “HTML” email?**
Email can be sent in several formats, the most common being plain text and HTML (recommended). HTML is the way emails are coded to handle things like hyperlinks, bold, italics, color and images. Plain text is just text with no formatting, color or

Nursing Home Quality Improvement
The Nursing Home Quality Improvement Network works to improve quality of care delivery to nursing home residents.

Patient and Family
This network provides Medicare patients and their families valuable information and the latest news on The Centers for Medicaid & Medicare (CMS) quality improvement projects. In addition, there are tools and resources to help you improve your health and experience with the health care system.

Quality Improvement Initiative
The Quality Improvement Initiative Network collaborates with practitioners and providers to improve the quality of health care provided.

Readmissions
The Readmissions Network fosters community coalitions of patients, caregivers and clinical teams to improve the quality of patients’ transitions between health care settings and reduce avoidable hospital readmissions.

Additional resources and the link to sign up for the Data Portal are located here.
Data Portal Agreement

Behavioral Health, Readmissions and Nursing Home Quality Improvement Networks use the same sign up and agreement form (below) to access the data portal. The agreement should be completed by providers in Texas, Arkansas, Missouri, Oklahoma and Puerto Rico only. It will take about five minutes to complete.

Readmissions and Behavioral Health

The Readmissions Network has an ambitious goal of reducing avoidable hospital readmission and admission rates by 20 percent by 2019. This type of transformational change relies heavily on community innovators. Your facility can play an important role in tracking statewide and community progress toward this shared goal by submitting your readmissions data securely on this website each month.

In addition, the Behavioral Health Network is working with primary care practices to screen Medicare beneficiaries for depression and alcohol use disorders, and working with inpatient psychiatric facilities (IPFs) to reduce 30-day readmission rates for Medicare beneficiaries discharged from IPFs.

To contribute to the tracking of progress, please have an authorized representative from your organization fill out the agreement below. This sets up a facility-level account on our website for you to securely report and track data and download quarterly readmissions data reports developed by the TMF QIN-QIO for your community.

Read more about signing up to receive a data portal account (PDF)

If you need Readmissions assistance, please contact Vanessa Andlow at 512-334-1642.

Nursing Home

The TMF QIN-QIO provides individual nursing home reports compiled of composite score and quality measure data to nursing homes in the TMF QIN-QIO region. Sign up below to view and access these downloadable reports to assist in your quality improvement progress.

Not participating in the project yet? Email NHNetwork@tmf.org to inquire about our quality improvement project.

Data is secured by a facility-specific username and password, and we will not share facility- or provider-specific data.

If you need Nursing Home assistance, please email Cayce Brewster at NHNetwork@tmf.org.
# Data Portal Agreement

### Organization Type:
- Home health agency

### Medicare Provider Number:
- [Field]

If you do not have a Medicare Provider Number, please contact Readmissions@TMF.org and you will be assigned an ID number to complete your portal account.

### Re-enter Medicare Provider Number:
- [Field]

### Name of Facility:
- [Field]

### Facility Address Line 1:
- [Field]

### Facility Address Line 2:
- [Field]

### City:
- [Field]

TMFQIN data portal participation is limited to organizations in Arkansas, Missouri, Oklahoma, Puerto Rico and Texas.

### State:
- Arkansas

### ZIP:
- [Field]

### Facility Phone (xxx-xxx-xxxx):
- [Field]

### Fax (xxx-xxx-xxxx):
- [Field]

Is your facility involved in any other initiatives? [Yes] [No]

If YES, please list which initiatives and with whom:

- [Field]

Data Portal Agreement

Confidentiality Statement

The TMF QIN-QIO is committed to ensuring the confidentiality of the information shared within the Behavioral Health, Readmissions and Nursing Home projects. Both facilitators and participants are expected to maintain and safeguard the confidentiality of privileged data or information – whether written, photographed or electronically recorded and whether generated or acquired by the team – which can be used to identify an individual patient, practitioner or provider.

To contribute to the tracking of progress, please have an authorized representative from your organization fill out the agreement below. This sets up a facility-level account on our website for you to securely report and track data and download quarterly readmission data reports developed by the TMF QIN-QIO for your community. Read more about signing up to receive a data portal account. (PDF)

If you need Readmissions assistance, please contact Vanessa Andow at 512-334-1642.

Note for facilities creating a Readmissions Data Portal account:
I agree to share my facility’s participation on the Readmissions Network map. This will only include sharing my facility’s name, city, and provider type. (Participating communities will be displayed on a map on the Readmissions Network which will show facility names. Note, updates will be processed monthly.)

- YES
- NO

Data Portal Agreement

Thank You

Thank you for submitting the Data Portal Agreement.

Readmissions Data Portal Users: If you agreed, your provider name will be visible to other members of the network along with the city and provider type on the Readmissions Network map of participating communities. You can change your selection at any time. Note: updates will be made monthly.

You may now log out of your individual user account by clicking "Logout" in the upper right hand corner next to your Display name above.

Log back in with your data portal account information from your confirmation email sent to the address you indicated in the agreement.

When you log back in, you will see a Data tab in the menu above that includes a link to the Nursing Homes or Readmissions Data Reporting page. You will also see an orange button in the top right corner of these network pages indicating to enter or access your data portal. Click the orange button and you will be taken to your respective data portal page to enter your monthly monitoring data and/or to access your reports.

An email with your username and password and the contents of your agreement has been sent to: Readmissions@tmf.org

Check this email (your email)
Data Portal Agreement

Thank you for completing the TMF QIN-QIO data portal agreement. It allows access to Readmissions data reports and self-reported interventions data, Behavioral Health self-reported interventions data, and Nursing Facility quality measure reports. Approval for access to both data sets is required for viewing reports.

If you are entering self-reported interventions and will not have provider-specific nursing home or readmissions data reports, you can begin immediately.

1. Go to [http://www.tmfqin.org/Home/ctl/SendPassword](http://www.tmfqin.org/Home/ctl/SendPassword) to request your username and password.
2. After you have reset your password, you will be able to log in to the [Behavioral Health Data Portal](http://www.tmfqin.org/) with the username listed below.

If you are being granted access to provider-specific nursing home or readmissions reports, your account is currently pending approval to be granted access to these reports. Additional emails will be sent when this request has been approved by each project.
Data Portal Agreement

2. After you have reset your password, you will be able to log into the [Readmissions and Behavioral Health Data Portal](http://www.tmfqin.org/Home/ctl/SendPassword) with the username listed below to begin entering data. If you are being granted access to provider-specific nursing home or readmissions reports, your account is currently pending approval to be granted access to these reports. Additional emails will be sent when this request has been approved by each project.

Your username is: RATX123456

Set/reset your password:
[http://www.tmfqin.org/Home/ctl/SendPassword](http://www.tmfqin.org/Home/ctl/SendPassword)

This is your six-digit provider number and will always be your username to see data.
