Promoting Interoperability Workshop
Join the Promoting Interoperability (PI) Workshop to prepare for the PI category of the Merit-based Incentive Payment System (MIPS). This 90-day workshop will include an implementation guide and action items, live workshop sessions and individual support as needed. **Sign up here.**

Goals
This workshop will simplify and clarify the process of preparing to report for PI through step-by-step education and assistance. At the end of this workshop, active participants will have completed or be prepared to complete the base measures for the required 90-day period of data for 2018 MIPS reporting. You may also have data collected for performance measures, if you decide to work toward that as well.

Tools for Success
During this PI Workshop, we will work through base and performance measures. Guidance will be provided through written tools, group workshop sessions and individual consultant support:

- Implementation Guide to walk through each measure, with additional resources cited
- Online workshop sessions to introduce and discuss each base and performance measure
- Suggested assignments to guide your data collection and documentation
- Quality Improvement Consultants to provide individual support as needed

Online Workshop Sessions
Join us for live workshop sessions on WebEx. Workshop sessions will be an opportunity to learn, ask questions and share your challenges and successes. Sessions are live only and are not recorded. Register for each individual session. All sessions take place noon to 1 p.m. CT.

- Aug. 7: Workshop Kickoff Session
- Aug. 21: Health Information Exchange Measures
- Sept. 18: Provide Patient Access Measure
- Oct. 2: Security Risk Analysis
- Oct. 16: Patient-generated Health Data and Patient-specific Education Measures
- Oct. 30: e-Prescribing and Public Health and Clinical Data Registry Reporting Measures
- Nov. 6: HIE Performance Measures and Clinical Information Reconciliation
- Nov. 27: 2018 Review and Preparation for 2019

Sign up Now for the PI Workshop
**Sign up for the PI Workshop here.** After signing up, look to receive more information by email, and you can register for the individual online sessions listed above.
